

NEW!

Skimmer Safety Cover* (Self-closing)

High Impact Polymer Resin

SIZE: 12" Diameter, 1/2" high

An Industry First!

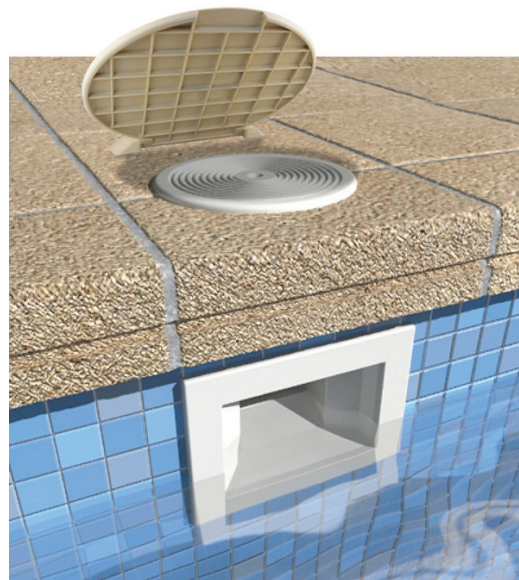

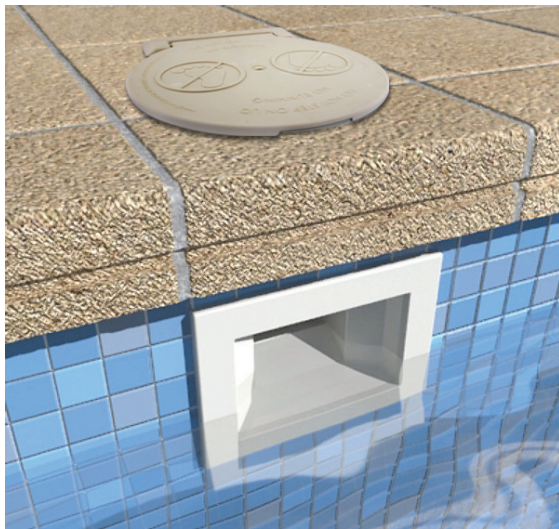

This maintenance upgrade will drastically decrease the possibility of bodily injury due to stepping into skimmer opening when original OEM lid is unintentionally removed or lost.

Features:

- **SELF CLOSING:** hinged lid will close due to its own weight and position (full extension of opening of 80°)
- 5 year UV resistant non corrosive plastic design
- 300 lbs center load absorption, non shock
- 4-bolt-down hinge design with supplied screw hole plugs
- Available in white, sandy beige and slate grey
- Installation kit included

Application:

Install as a secondary layer of safety over existing skimmer lids with a maximum diameter of up to 11 inches.
